Msia:

Congratulations! Now that the WAC Committee has reviewed your syllabus, you have fulfilled all of the requirements for WAC certification. I applaud you for the way you have broken down the research paper and campaign projects into manageable "chunks." However, before you teach the course next spring, please consider the specific suggestions in the attached file from your lead reviewer. Also, please note the following change in the WAC prerequisite: "C or better in ENGL 003, ENGW 103, or ENGW 105 for COAS students; a passing grade for other students."

We will add your name to the WAC certification webpage and email you a certificate this week.

Best,

Teresa

Msia:

Thank you for submitting your AFST 701 syllabus for WAC certification. I will forward it to the WAC Committee for review. In the meantime, since you successfully completed the WAC training, it is fine for your
